👤 PROFESSIONAL SUMMARY

Senior Full-Stack Software Engineer with 8+ years of experience building scalable web applications, microservices, and enterprise platforms, expertise in **TypeScript, Angular, React, Node.js, NestJS, ExpressJS, Laravel, MySQL, PostgreSQL and MongoDB**. Proven track record of designing **REST APIs**, optimizing backend performance, and delivering business-critical systems across logistics, healthcare, e-commerce, and property management domains. Expanding expertise in **AI-powered applications, Retrieval-Augmented Generation (RAG), Model Context Protocol (MCP), OpenAI integrations, and workflow automation** to build intelligent and efficient software solutions. Currently based in **Berlin** and available immediately for full-time opportunities in **Germany**

📁 PROFESSIONAL EXPERIENCE

MARHABA CAR AUCTIONS LLC / M1 SHIPPING SHARJAH

SR. SOFTWARE ENGINEER (WEB-Developer)

Oct 2023 – Jan 2026

Sharjah, UAE

- Designed and developed scalable backend systems and **REST APIs** using **Node.js** and **Express.js**, handling 5K+ daily requests while optimizing response time and system performance.
- Developed and maintained a web application using **PHP (Laravel, Symfony) and React, Angular**, implementing core business features and **API** integrations.
- Built and maintained **RESTful APIs** and **web applications**, ensuring scalability, performance, and reliability.
- Designed scalable database schemas and optimized **MySQL** queries and **MongoDB** aggregation pipelines to improve performance and efficiency.
- Implemented secure authentication and authorization using **JWT** and role-based access control (**RBAC**), ensuring protected API access.
- Collaborated with product managers and cross-functional teams to develop modules and implement API integrations, ensuring smooth system delivery.

Tech Stack: Node.js, Express.js, MongoDB, MySQL, PHP, Laravel, Symfony, WordPress, Docker.

GOLPIK INC

SR. SOFTWARE ENGINEER

Aug 2021 – Jun 2023

Karachi, Pakistan

- Developed and maintained enterprise backend systems and property management systems.
- Developed APIs using **Node.js, Express JS, GraphQL & MongoDB**.
- Developed e-commerce applications using **PHP, Laravel** and **Symfony**.
- Worked on **LMS** (Learning Management System) using **PHP, Laravel, Vue.js**.
- Contributed to backend architecture decisions and scalability planning
- Integrated third-party services and external APIs.
- Worked closely with clients to transform business requirements into scalable software solutions.

Tech Stack: Node.js, Express.js, PHP, Laravel, GraphQL, MongoDB, MySQL, Vue.js, Angular.

Pulse Tech

SR. SOFTWARE ENGINEER

Mar 2020 – Jun 2021

Karachi, Pakistan

- Developed backend modules for **hospital management** and **EMR systems**.
- Implemented data handling and patient record management
- Optimized database performance and ensured system reliability

Tech Stack: PHP, CodeIgniter, MySQL, HTML, CSS, Ajax, jQuery.

DYNAMIC GLOBAL LINKS

SOFTWARE ENGINEER

Jan 2018 –

Karachi, Pakistan

- Built backend functionality for **e-commerce** and **CMS** platforms.
- Participated in system enhancements and performance improvements.

Tech Stack: PHP, Laravel, CodeIgniter, MySQL, HTML, CSS, Ajax, jQuery.

GENETECH SOLUTIONS

JUNIOR SOFTWARE ENGINEER

Nov 2016 – Oct 2017

KARACHI PAKISTAN

- Developed backend modules and maintained existing systems
- Collaborated with QA and project managers to ensure quality delivery.

Tech Stack: PHP, CodeIgniter, MySQL, HTML, CSS, jQuery.

ZERO360

Jan 2014 – Jan 2016

JUNIOR SOFTWARE ENGINEER

- Developed and maintained websites and web applications.
- Collaborated with team members to enhance existing products.

 EDUCATION

Bachelor in Computer Science

University Of Sindh

Jan 2010 – Dec 2013

Jamshoro Sindh Pakistan

AI Engineering & MCP

Self

AI Engineering & MCP, Model Context Protocol (MCP), RAG Systems, OpenAI APIs, AI Agent Development

 CORE SKILLS & TOOLS

Backend

Node.js (Express.js, NestJS), PHP (Laravel, CodeIgniter, Symfony), Docker.

Databases & Caching

MySQL, MongoDB, Redis

Architecture

MVC, Monolith, Microservices

API Development & Data Handling

REST APIs, Swagger, Webhooks, GraphQL & Apollo Client, API Integration, JWT Authentication, RBAC, Third party API integration, AJAX

Frontend Development

JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, jQuery, Bootstrap, Angular, React, Vue.js, Next.js,

State Management

Redux, Tran-Stack, Vuex

AI-Assisted - Development Tools

Cursor, Windsurf, VScode, ChatGPT, Copilot, PHP-Storm

 LANGUAGES

- English - B2
- German A2 (currently learning)

 WORK AUTHORIZATION

Opportunity Card Holder — Eligible for full-time employment in Germany.
